

I graduated from NYADI in August 2016 in
the Diesel Field

When I attended NYADI I received the skills
and knowledge and the support from the instructors
and staff which created a tremendous benefit to me

Before graduation I worked in the Diesel Field
and while I was there I was promoted to shop
manager and was then offered to buy the business

(NDR group INC)

I am now very successful in my business
and very happy that NYADI gave me the opportunity
to pursue my dream.
