NYADI

**178-18 Liberty Avenue
Jamaica, NY 11433**

www.nyadi.edu

As Thanksgiving approaches, our NYADI family will find a lot to be thankful for. The leaves are finally falling but NYADI's numbers are increasing. We are happy to welcome new students, new staff, and new faculty.

Our graduates have also found new jobs at our recent, and very successful, career fair.

Opportunities for technicians and tradespeople continue to grow nationwide.

Career advancement is also wide open as the last of the baby

boomers retire. Of course, the AOS degree will even enhance those opportunities.

So if you haven't taken stock of your present situation and set goals for your future, now is the time.

Give thanks for your options; make plans, and get to work on preparing yourself.

Career Fair October 26, 2017

Staff News

NYADI welcomes Mr. **Louis Gonzalez** on his return to our school as Director of Admissions, a position he last held in 2009.

Mr. Gonzalez has had a long career in the educational field, beginning as an Admissions Representative at Drake Business School. Later, he served as Regional Director of Admissions for World Wide Education Services in New Jersey. His experience will be greatly appreciated as we enter a period of rapid growth.

Mr. Gonzalez is an avid athlete and has been playing baseball since he was nine years old. He currently plays for an over 35 league on Randall's Island – La Liga Milagrosa. He also enjoys salsa dancing and spending time with his four grandchildren. In his own words: "I am very excited about the opportunity to return to NYADI and especially ex-

cited about the transition to college status: I look forward to making an impact on the young students in our community."

Congratulations to **Martin Rivera** on his appointment as Executive Director of the Admissions Department. His new duties include a focus on outreach to schools, GED training centers, and community centers. He is excited to be a part of rebranding NYADI as The College for Automotive and Diesel Technology. So far, he has found that potential students are enthusiastic and many are applying, especially for the AOS Degree.

By interacting with the public in his new capacity, Mr. Rivera hopes to increase our name recognition and reputation in our local community and beyond. There are so many people who can benefit from our career building opportunities.

NYADI will be closed Thursday, November 23, and Friday, November 24.
